Kristen,

I have added the two contacts to the list on the website.

Regarding the site name, I changed the name to simply "Tower Standard/ Haskell Lake Site", removing the LUST designation and not making reference to it being a petroleum site. The website is funded through Superfund and we do not provide any funding on our own for the website costs. So far this has not presented any problems but I want to continue to avoid any questions about our site's eligibility to use this resource.

Please let me know if you have any questions.
